
HostGator September 2009 Coupon

Friday, 07 August 2009

If you are new to subscribing to a web hosting service for your web portal, I believe that HostGator can be a very good starter web host. Based on my personal experience as a HostGator user, I can say that the hosting experience with the company is pretty good. For example, once I forgot to upload a specific folder for the CMS program that I was using and I opened a support ticket to lodge my complaint. To my surprise, they managed to assess and solve my problem in under an hour – and best of all, the problem wasn't with their web host, but it's due to the fact that I forgot to upload an important folder!

Well if you want to save more on your web hosting bill, kindly use some of these coupon codes for additional savings. I would recommend that you try using the \$0.01 for first month offer, just to see what it is like hosting with HostGator.
