
Free HostGator Hosting

Friday, 07 August 2009

First and foremost, I'm sure you might be thinking that I am lying when I say that there is free HostGator hosting account which you can use for free. Of course, if you do go to HostGator.com and subscribe to one of their shared hosting packages, and enter HGC25 into your online shopping cart, the system will deduct the monthly hosting fees to just \$0.01 for the first month!

Ok, ok so maybe I lied a little, but still, paying 1 cent for your hosting account for the first month also means that you are hosting for 99.99% free! That's close to free!

Furthermore, I'm sure that you can use this opportunity to see whether HostGator.com is the right host for you. After all, you can cancel your account if you find that HostGator.com cannot meet your hosting requirements.

Try this coupon code: HGC25 to be entitled for \$0.01 for the first month!
