

## GoDaddy Coupon Codes for October 2009

Monday, 21 September 2009

Well for the month of October, there are tons of exclusive offers which are waiting for you. For example, you can now register for .COMs for only \$7.49 and there's even a coupon code which entitles you for FREE private registrations as well. On the other hand, if you have already registered a .COM under GoDaddy, and you have applied Private Registration on this particular domain, you can use the exclusive coupon to renew your domain for only \$7.49 and renew the private registration for only \$5!

Also, not to forget you can now save 25% off \$75 &ndash; this offer was disabled a couple of months ago, and I think that GoDaddy reactivated the coupon, so make sure you take advantage of the offer, while stock lasts!

Here are the coupon codes for GoDaddy, enjoy!

Register or renew a .COM for only \$7.49
