

# BLOX FOREVER

Sunday, 24 December 2006

Place the correct gem colour together. Use the mouse to move the blocks up, down, left, and right . Avoid potential hazards. This is a nice gaming concept. Quite similar to Bejeweled! Kind of addictive when played over long period. But when you reached certain level, it's kind of repeatitive. On the other hand, certain levels are quite challenging. Makes your brain think harder.
