

Rocket Man

Sunday, 24 December 2006

Help Rocketman save his chick. Fly and bounce on top of planes to achieve your objectives. Use the mouse to select an angel and power for Rocketman to fly. Click to set off his boosters. It's like O2Jam - if you have played before this online game you would know. You will have combo for each consecutive successful jumps. But you won't be pressing the keyboard to achieve this. Addictive! I wonder how does Rocketman's chick look like.
