Alpha Bombs are dropping from the SKY! This is a typing game. Just follow the letters that appear on the bomb and press the keys on the keyboard accordingly. Press spacebar to use your MAMA bomb - every bomb on screen explodes/disappear. Collect special letters to form 'LIFE' or 'BOMB' to get extra life or bomb. Be careful of the MAMA ship. You will need to collect the correct points to defeat her. Make sure the bombs reach nearer to your city before you intercept it - you get more points.

I love this game. Very addictive! Time for kids to learn typing!
