# I Made a ReverseLinks Link Sale! Here Are Some Shocking News

Tuesday, 29 May 2007

Once again, it was months before I actually got a sale on ReverseLinks. Nothing to be proud of, it's just a \$5 bucks a month sale. What shocked me was that publishers only get 70 percent of the total earnings. I sold 1 link for \$5 bucks and I got \$3.50 from them only. Look at the screenshot below:

Once again, I didn't read their TOS properly so that's why I'm shocked to find my earnings cut automatically. Another shocking news is that they don't pay until your accumulated earnings reaches \$10. Look below:

{mosgoogle left}And the final shocking news is that your link(s) needs to be up for at least a month before they actually pay you. So just visualize this:

1. Yay! I got a link sale. Uploads link onto site
2. Waits 30 days or 1 month
3. System verified that it is already 30 days since link was up
4. Verify that you have accumulated at least \$10 in your account
5. Makes payment after that

Such a long wait&hellip; Text Link Ads would be leading by a 5-0 in the score board leading ReverseLinks&hellip;

PS - Dear Santa, I wish that they will come up with an affiliate program. Thank you!
