

Crashdown!

Tuesday, 09 January 2007

Crashdown! - Just like the name of the game, you are supposed to make the blocks Crashdown! Click blocks of 3 or more with the same colour to remove it. The faster you click the quicker you win the game. When you meet your ‘line’ quota you will get to proceed to the next level. Though the sound produced by the game ‘sounds funny’ it’s quite addictive after a round or two. So start your destruction of blocks NOW!

Difficulty: Easy

Rating (1 to 10): 5.5

Level of Addiction (1 to 10): 5
