Boom Boom Volleyball! Play volleyball using these two chicks. Use the up, down, left and right cursor key to navigate her and press spacebar to hit the ball. The good thing about this game is you can play 2 players. However for my computer, it doesn't handle well when too many keys are pressed. I find it hard just to defeat the AI, it's just simply too powerful! I can't even win her. I think this game is made for 2 players rather than playing with the AI - too intelligent. Anyway, have fun with Boom Boom Volleyball! PS: Topless mode - GETUMOUT
