

Reseller Hosting

Thursday, 16 April 2009

www.pickaweb.co.uk is a reputable UK based web hosting company that offers quality and reliable Reseller Hosting packages. In fact, if you are thinking of establishing your own web hosting company, but lack the expertise to setup all the necessary hardware for your business, you should seriously consider getting a reseller account with www.pickaweb.co.uk.

Based on my analysis, I can clearly see that the reseller hosting packages offered by www.pickaweb.co.uk are really affordable indeed. For example, for just a mere £9.99 per month or £99 per year, this grants you 8GB of disk storage space and a whopping 30GB of monthly bandwidth for your reseller account. Do take note that the company utilizes extremely fast servers which are located strategically in UK, thus you can be sure that their servers have the ability to absorb high traffic and workload produced by you and your prospective clients. Also, you can rest assure that their tech support would always be there to address any problems that you might encounter with your reseller account – 24 hours a day, 7 days a week.

On the other hand, www.pickaweb.co.uk also offers other web hosting packages – such as budget plan, starter plan, webmaster plan and business plan.

If you require more information regarding these hosting packages, make sure you visit www.pickaweb.co.uk to get more info.
